KENDALL'S SPAIN CURE. 205

The most successful remedy ever discovered as it is certain in its effects and does not blister. READ PROOF BELOW.

Dr. R. J. Kendall & Co., Gentles-Sample of your Kendall's Spavin Cure with great interest. I thought I would let you know what it has done for me. Two years ago I had a spavin on my left hind leg of my horse. When I was traveling him, he would over the cross bar and get fast and tore one of his hind legs all to pieces. I saw that the best remedy, but they said he was spoiled. He had a very large thoroughbred and I could not afford to lose him. I tried the Kendall's Spavin Cure, and he was cured. I have used it for bone spavins and wind-galls, and it has always cured completely and left the leg smooth.

I was in Washington & Kentucky, and recommended it to a good many, and they all say it will cure you soon. I tried to buy it but could not find it. I would write you a very long letter but I will stop here. I wish you would, and I will do you all the good I can.

Very respectfully, E. S. LYMAN.

FRANKFORT ROUNDABOUT.

GEORGE A. LEWIS.

Editor and Publisher.

FRANKFORT, JANUARY 13, 1883.

The Governor's Light Artillery were out Monday, the 8th, for the first time in their new uniforms, and the boys looked real sweet. They fired the thirty-eight guns in a very few minutes.

Four young ladies have died in Lexington from fevers produced by over exertion at the roller skating rink in that city. We hope no such sad results will follow the proposed opening of a rink in this city.

The meeting of the Democratic State Convention to nominate candidates for all the State offices to be filled at the next August election, has been fixed for the 16th of May. The primary elections will be held in each county on the 5th of May.

The ties for the first and second prizes given by Mr. Phil Sellert to his customers were thrown off Monday, and the first, the imported clock, was won by Mrs. James O'Regan and the second, the gold headed cane, was won by Mr. Dallas Coke.

Mr. F. M. Conway, of this county, showed us on Saturday a sample hand of a splendid crop of white Badley tobacco raised by him the past season. The leaves measured twelve inches wide by thirty-six long and were perfectly free from house burns, and had not been cut by the worms. He has about 2000 pounds of it and has been offered thirty-five cents per pound.

Gen. Green Clay Smith has taken charge of the Twenty-second street Baptist Church in Louisville and preached his first sermon for them on Sunday morning. At the morning service there were thirty-five additions to the Church and at the evening service sixteen more were added to the number. His salary has been fixed at two thousand dollars per annum.

The old Eli Williams residence, a mile and a half east of the Forks of Elkhorn, on the Forks of Elkhorn pike, was destroyed by fire Thursday evening. It was the property of Mr. Wm. Seay, and was occupied by his two sons, Robt. and Charles, who were away from home at the time, and the furniture and other contents of the house was consumed with it. It is supposed to be the work of an incendiary. There was no insurance.

While some gentlemen were shooting at a target Wednesday afternoon, using a twenty-two caliber rifle, the gun went off accidentally in the hands of young Mr. Bridges, of Louisville, and the ball struck Mr. Zook, Thompson in the back just below the left shoulder blade, passing through his clothing and just burying itself in the flesh. Fortunately for him his clothing was very thick and he had on his overcoat at the time, or he might have been mortally injured.

We are glad to know that Rev. J. B. Tharp, of this city, was on Monday elected by the Board of Directors Superintendent of the Masonic Widows and Orphans' Home, at Louisville, vice T. S. Finch, resigned. We congratulate Mr. Tharp upon having secured the appointment, and while it is no easy one to fill, we feel confident he will perform the duties to the utmost satisfaction of the management of the Institution, as he possesses in an eminent degree the essential qualifications for such a position. As the Home is an institution in which the Masonic fraternity throughout the State take great pride, we are glad that it has fallen into such good hands.

One night last week an attempt was made by some one to break into one of the hotel warehouses of Messrs. W. A. Gaines & Co. at the Hermitage Distillery. He climbed on to a neighboring shed, placed a piece of timber up against the warehouse, climbed upon the roof and endeavored to effect an entrance through one of the skylights. The timber was discovered by the night watchman, who went for one of the hands to assist him in capturing the man and while he was gone the rascal made his escape. He had gotten all the party from around one of the glass when frightened away. Messrs. Gaines & Co. have presented their watchman, Mr. Strand Batard with a splendid new pistol, and the next visitor of the kind will meet with a warm reception.

Kendall's Spavin Cure is the best liniment on human flesh in the world. Try it and be convinced. Read the advertisement.

Dr. J. R. Carrel, of Louisville, lectured at the Methodist Church on Tuesday and Wednesday evenings for the benefit of the Church. He had a large audience on Tuesday evening, but owing to the inclement weather not so many were present Wednesday. Both lectures are highly spoken of by those who were present.

Accident to Mr. H. Berry.

Some hands were at work in one of the warehouses at the Hermitage distillery Thursday morning raising a girder that had swayed down, and by means of a jack screw had gotten it up nearly high enough to admit an inch and a half block between it and one of the posts which supported it, when Mr. Hiram Berry got upon a step-ladder to slip the block in place. Just then the jack screw toppled over and one of the timbers was thrown against Mr. Berry with great force, striking him in the face and chest, knocking him off the ladder and he fell to the floor, his head coming in contact with a post behind him. His nose, chest and head were badly bruised and his spine has since given him great pain, but it is hoped that he will be out again in a week or two. It is a wonder that he escaped with his life.

STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

501 N. Fremont St., Baltimore

During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

G. DICKER.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and tone to the nerves.

The court-room was filled with an eager throng all day Monday and Tuesday, but while the Commonwealth's Attorney, Mr. DeJarnette, was making the closing argument, which was a masterly effort. Tuesday afternoon, it was packed to suffocation. At the close of his speech the case was given to the jury, who had failed to make a verdict up to late yesterday afternoon.

In the Circuit Court Wednesday "Big Liz," the colored woman who set fire to the work-house, was given one year in the penitentiary. Henry Whiting, colored, was acquitted of the charge of assisting Dan Chapman in getting out of jail, and the case of Sam Gilden, charged with breaking into Mr. L. Tobin's cellar and stealing money, was continued until the February term. Moses Booker, who last week was convicted of stealing carpet from Mr. Peter Sawyer, and sentenced to the Penitentiary, prayed an appeal.

Some weeks since our Elmville correspondent gave a school teacher in that neighborhood a tough sum to solve which said he has failed to do and now a friend sends the following for the satisfaction of the Elmville preacher: "Suppose you want to kill thirty hogs in five days, killing an old number every day, how many will you kill each day?"

Our devil has not slept any at night since the above was sent in, and the amount of flouting that has been done upon it in our office would make any blackboard turn pale.

Dr. W. J. Carver, the champion rifle shot of the world, was in the city the first of the week, looking for fine horses. He gave a private exhibition of his skill to a few friends Monday afternoon, at Col. Pepper's training track, near the city, and showed with what ease he could hit a silver dollar when thrown into the air, the edge toward him, or hit three glass balls, two thrown up in front of him and the other behind, before they reached the ground. He is a large young man, and resembles somewhat the late Capt. Thos. J. South, of this city.

"Crown Jewel" patent flour at Day & Hall's.

A personal difficulty occurred on St. Clair street Thursday morning between Col. R. P. Pepper and Mr. Oscar Shubinski, in which a pistol, billiard balls and their respective owners were involved. Mr. Shubinski was just entering the door of Mr. Jack Venech's billiard saloon when Col. Pepper came up and said something to him about rent. He was exiting Col. P.'s mother-in-law, Mrs. Stirling, for a house in which he had been living. In the course of the conversation abusive epithets were made use of by both men, blows followed, Shubinski drew a pistol, Col. Pepper closed with him, and in the scuffle was struck over the head with the pistol. The two men fell to the floor, outside interfered, disarmed Shubinski, and pulled Col. Pepper off of him. When they got upon their feet again, Shubinski got hold of a billiard cue when Col. Pepper caught up the balls from a billiard table and began throwing them at him, one ball striking him in the back of the head as he went out the door. In the skirmish both men were considerably bruised up.

FRANKFORT ROUNDABOUT.

On Wednesday Major H. C. McDowell and family removed from Woodlake, in Lexington, to the Ashland place, near Lexington, which he purchased last summer. The same day Mr. John Noel, who purchased the Woodlake place of him, removed his family from his late residence, near this city, to Woodlake. On Thursday Mr. Albert G. Jeffers removed his family from this city to the Stephens place, made vacant by Mr. Noel, having purchased it from him several months since.

James Shouse, Jr., is very sick with pneumonia.

Rev. Wm. Smith has a very sick child, his youngest.

Mr. John Rapp had a big sale last Saturday. There was a large crowd, but nothing sold.

Mr. John Shackelford has been very sick for the last five weeks, and is very low at present writing.

Miss Kitty Conway, of Frankfort, came out last Saturday and spent several days at her uncle's, Robt. Conway's.

There were so many visitors in our neighborhood during the holidays that we will not trespass upon your space to name them.

We have a man here who says he ought to be the happiest man living, as he has his mother, and mother-in-law living with him.

We have a singing class that meets two or three times a week at the neighbors' houses and enjoy themselves. Music be the band.

We see that your Timesville correspondent has returned to the old, but he must have had too much Christmas not to know who was with him. Try, try again.

There is a rumor that we will lose some of our citizens soon. The Rev. Mr. Smith will remove to Shelby county, Mr. Laz Hallette to Louisville, and Mr. Lucy, our blacksmith, somewhere else.

Squire Dan Moore was accidentally shot by Mr. Joe Barnes, while rabbit hunting a few days ago, one shot entering between the first and second fingers and lodging between the bones of the hand, making a painful but we hope not a serious wound.

Mr. James Southard and Miss Lucy Moore took the 6:30 train last Thursday morning week, for Louisville, went over to Jeffersonville, where they were made happy, and then returned on the 5:15 P. M. train. That's the way to do the work. Who next?

AMORC.

Mr. R. A. Evans removed to Owen county the past week.

Miss Rosa Evans has gone to Clark to spend several weeks with relatives.

Mr. J. R. Peas commenced his school Monday with a large attendance.

Mr. W. F. Wallace and wife spent several days last week with friends and relatives at Lookport.

Mr. Colby B. Ragland, of Clark county, who has been visiting friends and relatives in this neighborhood, returned home Tuesday.

MR. EDITOR: As you have no correspondence from this place, I will give a few items of interest, as we do not desire to live an entirely private life.

There was a social given by Mr. Wm. R. Wallace and wife, on Monday night last week, in honor of Mr. C. B. Ragland, of Clark, and all seemed to enjoy the occasion hugely.

The steamer Little Harry made an excursion trip from Cedar Look to Lookport and return Saturday night, and Mr. Curtis Evans reports the excursionists as having had a jolly time.

Parties have been quite numerous in this section for some time, but have about run out now, though there was a social given at Mr. Geo. Hall's Thursday night of last week, which was very much enjoyed by the young folks.

I see that Messrs. Jas. Harrod and D. P. Bentley are not afraid to crow over their ability as debaters, but they are not alone in that business. They are mistaken in their claim to have defeated the Stony Creek boys, as there was but one from that section against them, and he by no means equal to Thos. F. Marshall; the other two, very nice gentlemen, however, were from Bald Knob. The Stony Creek boys did not propose to meet with Messrs. Harrod and Bentley, but only the late gentleman, who, feeling his inability to stand up before him, had to call on the farmer for assistance, on every occasion but two, and not until the last round did these lionhearted gentlemen come off victorious. The debates were greatly enjoyed by the winter and he hopes to meet them again at some future time.

A STRANGE REMINISCENCE.

The Escape of a Well known ex-Army surgeon from an Unforeseen Danger.

(Baltimore American.)

Meade, Editor: I seldom appear publicly in print, but the facts connected with my experience, which follows, are so striking, and bear so closely upon the experience of others, that I venture to reproduce them entire.

In the month of September, 1879, I was practicing medicine in New Orleans. The summer had been excessively hot and everybody was complaining of being exhausted and feeling tired. It was not an infrequent occurrence to have patients ask for something to relieve this weary sensation, and that I should also partake of the same universal lassitude or weakness, did not alarm me. I supposed that overwork and exposure had produced a temporary physical prostration; therefore I made a trip to St. Paul, Minn., thinking that a rest of a few weeks in a cooler climate would soon relieve me. Little did I dream, however, what was in store for me. After getting settled in my new quarters I took a short walk every day, and patiently awaited a return of strength, but in spite of all my efforts I seemed to be losing strength and even my slight exercise became laborious and tiresome. During this time I had frequent dull aching pains in my head, and through my back and hips, occasional sharp pains in various parts of the body, with soreness, shortness of breath, and palpitation of the heart. My feet and hands would be like ice one day, and burn with heat the next. I had no desire for food, and what I did eat distressed me; my sleep became disturbed with the frequent desire to urinate. The quantity of fluid passed would at one time be small and at another quite profuse. Then for some I would be perfectly free from this desire and nothing seemed to be the matter; nevertheless my debility gradually increased. My eyelids were pulled out; my bowels were alternately torpid and too active; the urine would be clear some days, on others it would be of high color and deposit a brick-red sediment, and at still others there would be a whitish appearance and a thin gray scum would rise to the top. The urine in any hot bottle, chest, joints, bowels, and bones were horrible in the extreme. I went in vain from place to place and consulted the best medical authorities the country afforded. I would have a chill one day and a burning fever the next. I suffered excruciatingly with a numbness of my feet and hands, and at the base of the brain and between my shoulders; at times my limbs and body would bleed and physicians said I was suffering from the dropsy and could not recover.

How I could be so blind to the terrible trouble that was devouring me, I do not know; but there are thousands to-day who are suffering from the same cause and are as ignorant of its nature as I was. My skin was the color of marble at one time, and then again it would be like saffron, and this terrible restlessness, and I might say wildness, was followed by a dull, heavy, drowsy sensation. I was wasted to a mere skeleton except when the dropsical bloated occurred. I tried all the celebrated mineral waters of this country and Europe, all kinds of medicine and all kinds of doctors. Still no help came. I lay at my hotel in Philadelphia, where I was temporarily sojourning, given up to the friends and physicians alike, when a little pamphlet, which I carefully read and from which I got a view of my real condition, which no other agency had revealed. Acting on its advice, I had my water analyzed at once and to my surprise, albumen and tube casts were found in large quantities. A skillful physician was sent for and apprised of the fact. He said I had Bright's Disease, and that death was certain. My friends implored me to take a remedy which had won a great reputation for the cure of all forms of kidney diseases, and I therefore laid aside my prejudice and commenced its use. At first my stomach rejected it and I had to use small quantities, but after the first five days my stomach retained full doses. This was one year ago last October, and my improvement was rapid and permanent. I have regained 50 of the 65 pounds of flesh I lost during my illness, and I feel as well to-day as I ever did, and I can unreservedly state that my life was saved by Warner's Safe Kidney and Liver Cure, the remedy I used.

It may seem strange that I, being a physician and an ex-army surgeon did not have the water analyzed before, but such is the fact. I had the symptoms of every other disease, and I did not suspect that my kidneys were in the least particular out of order, and here is where I was in the greatest danger, and where most people who read this article are in danger. I find that I am only one of thousands who are suffering from kidney disorders, which, neglected, surely terminate in Bright's disease. I also know that physicians may treat these disorders for months without knowing clearly what the trouble is, and even after ascertaining the cause, be unable to prevent it. When death, however, finally overtakes the helpless victim they disguise its real cause, attributing it to heart disease, convulsions, apoplexy, vertigo, paralysis, spinal meningitis, blood and uric acid poisoning, etc., etc.

Words, of course, fail to express my thanks to H. H. Warner & Co., of Rochester, N. Y., for giving the world such needful and certain succor as the Safe Kidney and Liver Cure, but such as they are I gladly give them; while to the thousands to whom I have lectured upon the laws of health and hygiene I earnestly urge that most cordially, as I warn them to beware of the insidious nature of a disease over which physicians confess they have no control and

which in one form or another, is carrying more people to untimely graves than any other malady.
